FY 2025 Hospice Final Rule

<https://www.cms.gov/medicare/enrollment-renewal/providers-suppliers/hospice-center>

<https://public-inspection.federalregister.gov/2024-16910.pdf>

Effective Date: 10/1/2024

CMS-1810-F

Regulation No. CMS-1810-F
Title FY 2025 Hospice Wage Index and Payment Rate Updates / Hospice Conditions of Participation Data / Hospice Quality Reporting Program Requirements
Display Date 2024-07-30
Publication Date 2024-08-06

The final rule went on display at the Office of the Federal Register's Public Inspection Desk on July 30, 2024 and will be available until the regulator's publication on August 6, 2024. See CMS-1810-F in the "Federal Register" section below.

5

Medicare Hospice Payment Policies

Rule finalizes policy to adopt most recent Office of Management and Budget (OMB) statistical area delineations, which revise existing core-based statistical areas (CBSA) based on data collected during the 2020 Decennial Census.

Hospices negatively affected by the change to their geographic wage index will only experience a maximum 5% reduction to their 2024 wage index, as there is a 5% cap on any decrease to the wage index from the prior year.

- <https://www.cms.gov/medicare/payment/fee-service-providers/hospice/hospice-wage-index/fy-2025-final-hospice-wage-index>
- This permanent cap, finalized in the FY 2023 Hospice Final Rule, prevents a geographic area's wage index from falling below 95% of its wage index calculated in the prior FY.

6

FY 2025 Routine Annual Rate Setting Changes

The FY 2025 hospice payment update percentage is 2.9% (an estimated increase of \$790 million in payments from FY 2024).

The FY 2025 payment rates for hospices that do not submit the required quality data would reflect the finalized FY 2025 hospice payment update percentage of 2.9%, minus four percentage points, which results in a -1.1% update.

The hospice payment update includes a statutory aggregate cap that limits the overall payments per individual that may be made annually to a hospice. The finalized hospice cap amount for FY 2025 is \$34,465.34 (FY 2024 cap amount of \$33,494.01, increased by the FY 2025 hospice payment update percentage of 2.9%).

Hospice Outcome and Patient Evaluation (HOPE)

- The rule also adopts and implements the HOPE patient-level data collection tool, beginning with FY 2025, and functionally replaces, upon implementation, the existing Hospice Item Set (HIS) structure.
 - Expected to be available **October 1, 2025**
- HOPE will collect data at multiple time points across the hospice stay, including admission, the HOPE Update Visit (HUV), and discharge. Compared to the HIS (which only collects data at hospice admission and discharge), HOPE will enable CMS to gather patient-level data during their hospice stay to improve patient quality of care. In addition, HOPE includes several domains that are new or expanded relative to HIS, including:
 - Sociodemographic (updated)
 - Diagnoses (expanded)
 - Symptom Impact Assessment
 - Skin Conditions
 - Imminent death

10

10

New CMS HOPE Video

CMS is offering a 4-minute, animated explainer video for hospice providers.

This video describes HOPE, the timepoints, their data collection timeframes, and introduces the symptom follow-up visit (SFV), if triggered during a HOPE timepoint.

HOPE data collection will be required for the Hospice Quality Reporting Program (HQRP) beginning on October 1, 2025 (FY 2026)

[HOPE Data Collection Timepoints Explainer Video – YouTube](#)

11

11

Hospice Quality Reporting Program (HQRP)

- Rule finalizes two new process measures to HQRP, expected to begin in FY 2028.
 - *Timely Follow-up for Pain Impact*
 - *Timely Follow-up for Non-Pain Symptom Impact*
- Reporting of these two measures would be through the new HOPE instrument.
- These process measures address hospice care delivery as they document whether a follow-up visit occurred within 48 hours of an initial assessment where there was an impact of moderate or severe symptoms with and without pain.

CENTERS FOR GOVERNANCE & SERVICES

Did You Know?

Notice of Election: Commonly known as the NOE – billing transaction

Election Statement: To receive hospice services under the Medicare Hospice Benefit, the patient (or authorized representative) must elect hospice care by signing an election statement.

https://cms.gov/medicare/hhh/coverage/coverage_guidelines/election_requirements.html

Additionally, CMS is proposing regulation text changes related to clarify the requirements related to the election statement and NOE in the CoPs. These regulation text changes do not change current policy but are intended to reorganize and more clearly distinguish the separate requirements for the "election statement" and the NOE.

Value Based Insurance Design (VBID) – Hospice Benefit Component End Date

- Hospice Benefit Component**
- The Centers for Medicare & Medicaid Services announced in January 2019 that beginning in CY 2021, through the VBID Model Hospice Benefit Component, participating MAOs could include the Medicare hospice benefit in their Part A benefits package.
- After careful consideration, CMS has decided to terminate the Hospice Benefit Component as of 11:59 PM, December 31, 2024.
- CMS will not be accepting applications to the previously released CY 2025 Request for Applications for the Hospice Benefit Component of the VBID Model.

CGS
CENTRAL GROUND SUPPORT

Reason Code 17729

• **Subject**
Effective June 3, 2024, (delayed from May 1, 2024), for claim "from" dates on or after this date, CMS implemented edits to enforce a new rule that would deny hospice claims if the certifying physician entered in the **Attending** field on the claim is not in the Provider Enrollment Chain and Ownership System (PECOS) as an enrolled or opted-out physician.

© Copyright 2024, CGS Administrators, LLC

19

19

CGS
CENTRAL GROUND SUPPORT

Reason Code 17729 Description

The attending physician's National Provider Identifier (NPI) data on the claim does not match the PECOS Enrolled Physicians File, or the dates do not fall within the physicians effective/termination dates.

- This reason code will edit the claim's attending physician's NPI data against the PECOS Enrolled Physicians File for hospice claims, type of bill 81X and 82X (excluding 8XA, 8XB, 8XC, 8XD and 8XE) with a statement "from" date on or after June 3, 2024, and will assign when:
 - Occurrence Code 27 and associated date (hospice certification or recertification date) are present, and the Occurrence Code 27 date does not fall on or after the physician's effective date but before the termination date on the PECOS Enrolled Physicians File
 - Occurrence Code 27 and associated date are not present and the claim statement "from" date is not on or after the physician's effective date but before the termination date
 - The attending physician's NPI and/or the first four characters of the physician's last name does not match the NPI and/or the first four characters of the physician's last name

20

CGS
CENTRAL GROUND SUPPORT

Reason Code 17729 Resolution

The [CMS Order and Referring Dataset](#) provides information on all physicians, as well as nurse practitioners (NPs) or physician assistants (PAs) by their NPI, who are of a type/specialty that is legally eligible to order, certify and refer in the Medicare program and who have current enrollment records in Medicare. Check the dataset to ensure the attending physician entered on the claim is:

- Listed on the CMS Order and Referring Dataset with a "Y" in the hospice column. If the physician has an "N" in the hospice column, they are not eligible to certify for hospice and the claim cannot be approved for payment.
- Their NPI is correct
- Their first four (4) characters of their last name exactly matches the dataset. Ensure the first and last name are not entered in reverse on the claim.

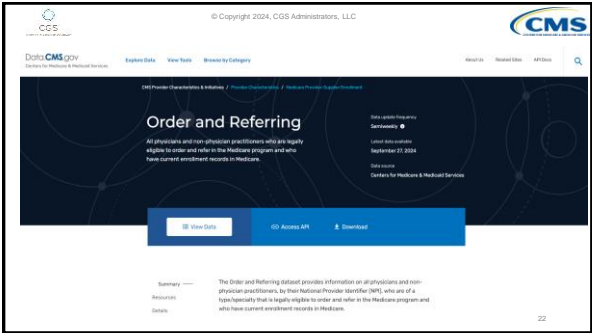

- For initial benefit periods, complete the **Attending Physician** and **Other** fields (with the hospice certifying physician listed in the latter field) unless the patient's designated attending physician is the same as the hospice physician certifying the terminal illness
 - When the attending physician is also the hospice certifying physician, only populate the **Attending Physician** field
- For subsequent benefit periods, the hospice certifying physician may be listed in the claim's **Attending Physician** field to avoid this denial
 - Leave the **Other** field blank

Hospice Coverage Guidelines

- Medicare pays for hospice care when qualifying criteria are met and documented. It is essential for hospice agencies to have a complete understanding of these criteria, as you have the right, and responsibility, in collaboration with the physician, to decide if the beneficiary qualifies for services.
 - The agency then must understand what services are covered, and how to document these services.
- To be eligible to elect the hospice benefit under Medicare, the beneficiary must be entitled to Part A of the Medicare benefit and be certified by a physician as terminally ill.
- A beneficiary is considered to be terminally ill if the medical prognosis for life expectancy is six months or less if the illness runs its normal course.
- Hospice services are provided by various healthcare workers that make up the interdisciplinary group (IDG).
- The services provided by the IDG are directed by the Plan of Care (POC) that is specific for each individual beneficiary.

50

Election Requirements

-  Please refer to the following sections of the Medicare Benefit Policy Manual (CMS Pub. 100-02), Ch. 9: 10, 20.2 and 40.1.3.1, <https://www.cms.gov/Regulations-and-Guidance/Guidance/Manuals/downloads/bp102c09.pdf>
-  To receive hospice services under the Medicare Hospice Benefit, the patient (or his/her authorized representative) must elect hospice care by signing an election statement.
-  Each hospice designs and prints their own election statement.
-  FY 2021 Hospice Final Rule included new hospice election statement and addendum requirements effective for all hospice elections beginning on or after October 1, 2020.

51

Which Templates Do I Use?

- As you develop your own hospice election statements and certifications of terminal illness, please review the revised:

Model Example of Hospice Election Statement

Right to Request "Patient Notification of Hospice Non-Covered Items, Services, and Drugs"

As a Medicare beneficiary who elects to receive hospice care, you have the right to request at any time in writing, the "Patient Notification of Hospice Non-Covered Items, Services, and Drugs" addendum that lists certain items, services, and drugs that are not covered by the hospice benefit. This addendum is provided to you at the time you elect hospice care. If you request this form during the election period, the hospice must furnish the written addendum within 5 days of the request date. If I request this form during the election period (other than in writing), I shall, at the time of the request, inform the hospice of my request in writing.

Beneficiary and Family-Centered Care Quality Organization (BFCC-QIO)

56

What Changed in March 2024?

Updated "Purpose of Issuing this Notification"

Changed Signature area

- Added/changed: "Note: The 'date furnished' is defined as when the beneficiary (or representative) receives an addendum within 3 or 5 days from their request and not the date of the signature."

57

19

Election Statement

The hospice's election statement **must include** the following:

- ✓ Identification of the particular hospice that will provide care to the patient;
- ✓ The patient's or representative's (as applicable) acknowledgment that the patient has been given a full understanding of hospice care, **particularly the palliative rather than curative nature of treatment**;
- ✓ The patient's or representative's acknowledgment that the patient understands that certain Medicare services are waived by the election. The effective date of the election, which can be the first day of hospice care or a later date, but cannot be a retroactive date;
- ✓ The patient's or representative's designated attending physician (if they have one). Include enough detail to clearly identify the attending physician. This may include, but is not limited to, the physician's full name, office address, or National Provider Identifier (NPI).

© Copyright 2024, CGS Administrators, LLC

58

Election Statement Requirements

Continued...

- ✓ The patient's or representative's acknowledgement that the designated attending physician was their choice.
- ✓ The signature of the patient or their representative.
- ✓ Information about the holistic, comprehensive nature of the Medicare hospice benefit.
- ✓ A statement that, although it would be rare, there could be some necessary items or services that will not be covered by the hospice because the hospice has determined that these items or services are to treat a condition that is unrelated to the terminal illness and related conditions.
- ✓ The statement would also include information about possible beneficiary cost-sharing for hospice services.
- ✓ Notification of the beneficiary's (or representative's) right to request an election statement addendum that includes a written list and a rationale for the conditions, items, drugs, or services that the hospice has determined to be unrelated to the terminal illness and related conditions and that expedited advocacy is available through the Beneficiary Family Centered Care-Quality Improvement Organization (BFCC-QIO) review if the beneficiary (or representative) disagrees with the hospice's determination.

© Copyright 2024, CGS Administrators, LLC

59

Change of Designated Attending Physician

- NOTE: If the patient/representative wants to change their designated attending physician, they must file a signed statement with the hospice.
- The statement must include the following information:
 - Identification of the new attending physician. Include enough detail to clearly identify the new attending physician. This may include, but is not limited to, the physician's full name, office address, or the NPI;
 - The date the change is effective;
 - An acknowledgement that the change in attending physician was their choice;
 - The patient's or representative's signature; and
 - The date the statement was signed.

*A hospice election statement, or statement changing the designated attending physician, that is missing any of the bulleted items above, is considered incomplete, and may result in a claim denial.

61

CGS
COMMUNITY GROWTH SERVICES

WHAT IS TARGETED PROBE & EDUCATE (TPE)?

TPE Defined:

- **Targeted Probe** – Focus on specific providers that bill a particular item, or service deemed a ‘risk’ or ‘variance’ by data analysis
- **Educate** – Targeted probe findings given as individualized reviews and one-on-one education from MACs to providers

Increased Education

Decreased Denials

TPE Intent:

Collaborative approach to reduce claim denials and appeals by increasing knowledge and improving accuracy

GOAL: Help providers quickly improve and prevent denials

TPE GOAL – MEETING THRESHOLDS

Round Results Letter

- Claims Reviewed
- Total Claims Paid
- Total Claims Denied/Reduced
- Total of nonresponse claims
- Error rate (based on \$ denied)**
- Claims Error Rate (based on number of claims)

3rd Round Threshold

This should not be a concern for most providers.

The majority that have participated in the TPE process increased the accuracy of their claims. However, any problems that fail to improve after 3 rounds of education sessions will be referred to CMS for next steps. If you did not meet the compliance threshold for Round Three, you will be referred to CMS for the next steps.

- 100% Pre-Pay Review
- Extrapolation of the % Denied and Payback
- Referral to a Recovery Auditor (ZPIC, UPIC, etc.)
- Other actions as required

Providers may submit questions or request education via the home health and hospice TPE email box: HSH-HomeEducation@cgadmin.com

Community Geriatric Services

TPE HOSPICE DENIAL PREVENTION

6-month Terminal Prognosis

Chronic vs Terminal

Chronically Ill

- Slowly declining disease process
- May require assistance with activities of daily living
- Can live several years as their body fails

Terminally Ill

- Disease progression significantly declining
- Trajectory of progression provides prognosis of a life expectancy of less than six months

Community Geriatric Services

TPE HOSPICE DENIAL PREVENTION

6-month Terminal Prognosis

Documentation

- Be specific to that individual patient
- Document what distinguishes the patient as terminal and not chronic
- Have narrative notes to explain information noted on a checklist - use comment sections
- Distinguish between exacerbation with stabilization and exacerbation with deterioration
- Compare current to previous
- Exacerbation and resulting decline/deterioration
- Purpose and need for aggressive palliative treatments

Documentation Opportunities:

- Appears to be losing weight
- Ate 50% of meal
- Shows "slow decline"
- "Stable"
- "Eating well"

General Inpatient Care (GIP)

Beneficiary's medical condition warrants a short-term inpatient stay for pain control or symptom management that **cannot feasibly be provided in other settings**

- ❑ Medication adjustment, observation, treatment to stabilize patient
- ❑ Intensity of care that cannot feasibly be managed in any other setting
- ❑ Services must conform with the written plan of care
- ❑ May only be provided in Medicare participating facilities
 - Hospital
 - Skilled nursing facility (SNF)
 - Hospice inpatient facility

Upon transfer to GIP level of care documentation should include both:

- ❑ A precipitating event (onset of uncontrolled symptoms or pain)
- ❑ The interventions tried in the home that have been unsuccessful at controlling the symptoms

79

79

Documenting the Need for GIP Care

Symptom Changes

- Uncontrolled pain
- Sudden deterioration
- Uncontrolled nausea and/or vomiting
- Pathological fractures
- Unmanageable respiratory distress
- Frequent, skilled wound care
- New or increased delirium and/or agitation
